New Vision for Domestic and Foreign Assistance; Capacity Building; Pursuit of MDGs
Feed the Future

- Large scale impact
- Synergies between agriculture, health, and nutrition
- Emphasis on first 1,000 days
- Linkages between water, food security, and climate change
- Educating and empowering women and girls
7th Annual Universities Fighting World Hunger Summit
Map the Meal Gap
No Kid Hungry Colorado: 5 Year Plan

1. Provide children access to healthy meals during the summer
2. Ensure that all children have access to a nutritious breakfast
3. Support families with the ability to purchase and acquire food to prepare at home
4. Ensure the nutrition and health of pregnant and postpartum women, infants and young children
5. Support child care providers’ ability to provide healthy meals and snacks
6. Help afterschool programs provide children with good nutrition and healthy snacks
7. Encourage children and families to make healthy food choices through nutrition education
8. Ensure access to high-quality nutritious food in low-income communities and schools
9. Ensure families can access food from food banks and food pantries
10. Improve the economic security of working families
Thank you for your support of this important effort to help millions of hungry people and to impact the lives of students around the world for generations to come.
